

March 31, 2025

Dear Canyon Rim Academy Neighbor,

Our school has been operating in a building that is now 70 years old and is facing diminishing capacity to provide a safe and comfortable learning environment for our students. The board has prioritized improvements over the years with the long-term goal of completely upgrading the facility. At our most recent school board meeting, a project to rebuild the school was approved.

This project is an investment not only for our students but the community at large. It will help to continue to draw families to our neighborhood and continue to strengthen the community ties that we share in Canyon Rim. Not only will this new school be an excellent place for education, it will continue to serve the community as a S.A.F.E School in the event of emergency situations.

We want to ensure the community is informed, as such meetings to review the project have been scheduled for **Wednesday, April 16, 2025 at 6:30 p.m.** and **Thursday, April 17, 2025 at 6:30 p.m.** These meetings will be very informative, and we hope that you will plan to attend one of the evenings.

On the school website a "Bldg. Dev" page has been created and will serve as an additional resource for all past and current information about the project, including schematics, FAQs, and communications. This page will also serve as the landing page where all future updates and information can be found. We encourage you to visit the <https://canyonrimacademy.org/bldgdev>

This is a pivotal moment for Canyon Rim Academy and building a new facility will ensure that our school will be able to provide excellent education for generations to come. Thank you for your ongoing support during this exciting chapter in our school's history. We can't wait to build the future together!
