

March 31, 2025

Dear CRA Stakeholders,

Our school has been operating in a building that is now 70 years old and is facing diminishing capacity to provide a safe and comfortable learning environment for our students. The board has prioritized improvements over the years with the long-term goal of completely upgrading the facility. In October, we announced that the planning and design phase of a new building was underway, and financing options were being reviewed. During the first quarter of this year a request for bids was extended for construction as was an RFP for financing. Based on the success of both processes the board has voted to proceed with building a new school on the current site which will begin as early as May. CRA will remain open in our current building during construction as the new building is built in the open space on our school property.

This project is an investment we all share and want to ensure everyone in the community is informed. Meetings to review the project have been scheduled for **Wednesday, April 16, 2025 at 6:30 p.m.** and **Thursday, April 17, 2025 at 6:30 p.m.** These meetings will be very informative, and we hope that you will plan to attend one of the evenings.

The 'Bldg. Dev' page of the school website will serve as an additional resource for all past and current information about the project, including schematics, FAQs, and communications. This page will also serve as the landing page where all future updates and information can be found. We encourage you to visit that page [linked here](#).

This is a pivotal moment for Canyon Rim Academy and building a new facility will ensure that our school will be able to provide excellent education for generations to come. Thank you for your ongoing support during this exciting chapter in our school's history. We can't wait to build the future together!
