

Student Electronic Use Policy & Agreement - Grades 3-6

Updated 7/2025

Canyon Rim Academy has created this policy to govern the use of electronic devices on school premises during school hours. The school provides students access to the school's electronic network, which includes internet access, computer services, computer equipment, and related equipment for educational purposes. This document contains the rules and policies for students' acceptable use of the CRA electronic network and personal electronic devices.

I. School Electronic Devices and Network -

Parent or guardian permission is required for all students to access the school's electronic device network. Access is a privilege — not a right. Canyon Rim Academy is not responsible for the actions of students who violate the policy beyond the clarification of standards outlined in this policy. Parents/Guardians are responsible for reviewing this information with their students and ensuring they understand the rules in this document. The school reserves the right to monitor all activity on this electronic network. Students will compensate the school for any damage caused by students' inappropriate use and violation of this policy on the network. Students are expected to follow the same rules, good manners, and common-sense guidelines used with other daily school activities, as well as the law, in the use of the Canyon Rim Academy's electronic network.

A. General Unacceptable Behavior

While utilizing any portion of the Canyon Rim Academy electronic network, unacceptable behaviors include, but are not limited to the following:

1. Students will not play games, use YouTube, use instant messaging (IM), email, listen to music, search on Google, or any other activities, applications, or functions during class time unless approved by a teacher. If a student is in their classroom or the computer lab at any time they use a school device, they **must** ask the teacher for permission to do something other than the assignment.
2. Students will not personally attack (cyberbully), be disrespectful, send mean comments, or harass any adult or student.
3. Students will not use speech that is inappropriate in an educational setting or violates school rules.
4. Students will not display, access, or send offensive, mean, or inappropriate messages, chats, or pictures, or to another student.
5. Students will not log in to any other student's account for any reason.
6. Students will not download anything from the internet without permission.
7. Students are not allowed to download any content from the internet.
8. Students will not get into the computer device management and management permissions.
9. Computer devices are to be used for educational purposes and specifically teacher assignments only.

B. E-mail Policy

1. Students may only use email accounts issued by the school unless approved by a teacher. Logging into an account that is not yours is a violation of this agreement.
2. Students must use email responsibly. Do not send emails to others they do not know or to a large group.
3. Students must use kind and respectful language in all emails.
4. Students may only use their school email for educational purposes unless approved by the teacher. Do not use your school email account to make a YouTube account or other personal accounts on the internet.
5. Students should not forward chain emails to others at the school.

C. Real-time interactive Communication

Students may not use chat or instant messaging unless under the direct supervision of a teacher or in a moderated environment that has been established to support educational activities and has been approved by the Canyon Rim Academy Computer Lab teacher and/or administration.

D. Personal Safety While on the Internet

1. Students will not share personal contact information about themselves or other people. Personal contact information includes address, telephone, school information, usernames, or passwords.
2. Students will promptly disclose to a teacher or other school employee any message received or picture that is inappropriate or makes the student feel uncomfortable.
3. Students may confidentially communicate with a teacher or other trusted adult at the school about violations they know about that are happening on the school network. Those adults will then communicate the information to the teacher or computer lab teacher.

E. Vandalism

Any malicious attempt to harm or destroy data, the network, or other network components connected to the

network backbone, hardware, or software will result in immediate removal from all computer and device use. Disciplinary measures in compliance with the school's discipline code and policies will be enforced.

F. Online Zoom/Google Meets and Other Online Meetings

Students should be respectful and kind when using online meetings and not distract other students while a teacher or aide is teaching.

II. Personal Electronic Devices - Smartwatches & Cell Phones

Personal electronic devices have become a common means of communication and information access in today's society. However, these devices have the potential to disrupt the orderly operation of the school. For the safety and security of students, during school hours all communication between students and family members is required to go through the front office and teachers. Communication with students through cell phones, smartwatches, or other electronic devices needs to be made outside of school hours.

For purposes of this policy "Personal Electronic Device" is defined as a privately owned wireless and/or portable electronic handheld equipment that includes but is not limited to cell phones, smart watches, walkie-talkies, handheld music, video, or entertainment systems, and any other communication technologies that do any number of the previously mentioned functions. Personal Electronic Devices also include any current or emerging wireless handheld technologies or portable information technology systems that can be used for word processing, communication, wireless internet access, image capture/recording, sound recording, and information transmitting, receiving, or storing.

A. Possession and Use

Students at Canyon Rim Academy may possess electronic devices at school subject to the following:

1. Students may carry and possess electronic devices to and from school.
2. Electronic devices must be turned off and kept in backpacks during school hours except under the supervision of the teacher in the classroom.
3. Electronic watches may be worn in the classroom and during school if the watch is on silent mode and is not used for communication (texting or talking).
4. Smartwatches/devices must be removed during school assessments unless they are used for the student's health.

B. Prohibitions

Electronic devices may not be used in a way that threatens, humiliates, harasses, intimidates, or violates local, state, or federal laws of school-related individuals, including students, employees, and visitors. Electronic devices may not be used during any Utah Performance Assessment System for Student assessments unless specifically allowed by law, student Individual Education Plan, or assessment directions.

C. Confiscations

If a student violates this policy, his/her electronic device may be confiscated. When an employee confiscates an electronic device under this policy, he/she shall take reasonable measures to label and secure the device and turn the device over to a school administrator as soon as the employee's duties permit. The electronic device will be released/returned to the student on the first confiscation. On subsequent confiscations, the electronic devices will be released/returned to the student's parent or guardian after the student has complied with any other disciplinary consequence that is imposed.

D. Security of Device

Students shall be personally and solely responsible for the security of electronic devices brought to school. The school shall not assume responsibility for theft, loss, damage, or unauthorized calls made with an electronic device. If devices are loaned or borrowed and misused by non-owners, device owners are jointly responsible for the misuse or policy violation(s).

E. Exceptions

With prior approval of the principal, the above prohibitions may be relaxed under the following circumstances:

1. The use is specifically required to implement a student's current and valid IEP;
2. The use is at the direction of a teacher for educational purposes;
3. The use is determined by the director to be necessary for other special circumstances, health-related reasons, or emergencies.

III. Violations of this Acceptable Use Policy & Agreement

Violation(s) of any part of this policy may be subject to any of the following: loss of computer use, loss of access, meeting with parents, and any other disciplinary or legal action as deemed fit for the situation. Students' violation of this policy shall be subject to the consequences as indicated within this policy as well as other appropriate discipline.

The particular consequences for violations of this policy shall be determined by the teacher, computer lab specialist, and/or school administrators. The administration shall determine when school expulsion and/or legal action or actions by the authorities are the appropriate course of action.

I have read and understood the above information to my child. I have explained the information to my students and will adhere to it in full.
