

Data Governance Plan

1. Governing Principles

Canyon Rim Academy (“CRA”) takes its responsibility toward student data seriously. This governance plan incorporates the following Generally Accepted Information Principles (“GAIP”):

- **Risk:** There is risk associated with data and content. The risk must be formally recognized, either as a liability or through incurring costs to manage and reduce the inherent risk.
- **Due Diligence:** If a risk is known, it must be reported. If a risk is possible, it must be confirmed.
- **Audit:** The accuracy of data and content is subject to periodic audit by an independent body.
- **Accountability:** An organization must identify parties which are ultimately responsible for data and content assets.
- **Liability:** There is a risk of financial liability from the misuse or mismanagement of data or content.

2. Data Maintenance and Protection Policy

CRA recognizes that there is risk and liability in maintaining student data and other education-related data and will incorporate reasonable data industry best practices to mitigate this risk.
